Summary

Aspiring **Business Analyst Intern** with hands-on experience in **gathering, analyzing, and interpreting business and market data** using **Microsoft Excel, Power BI, SQL, and Python (Pandas, NumPy)**. Strong foundation in **business intelligence, KPI tracking, trend analysis, and data-driven decision making**. Proven ability to create **dashboards, reports, and actionable business insights** to support strategic decisions and process improvement.

Skills

Business & Data Analysis: Business Data Analysis, Market Data Analysis, KPI Tracking, Trend & Pattern Analysis, Insight Generation

Reporting & Dashboards: Power BI Dashboards, Business Reporting, Data Visualization, Stakeholder Reporting

Tools & Technologies: Microsoft Excel (VLOOKUP, XLOOKUP, Pivot Tables), SQL, Python (Pandas, NumPy)

Analytical Concepts: Descriptive Statistics, Metrics Analysis, Business Performance Analysis

Professional Skills: Communication, Critical Thinking, Problem-Solving, Documentation, Cross-functional Collaboration

Projects

SQL-Based E-Commerce Business Analytics

PostgreSQL

- Analyzed **1M+ real-world transaction records** to evaluate customer behavior and business performance.
- Conducted **customer segmentation, KPI analysis, and revenue trend analysis**.
- Delivered **data-backed insights** to support retention strategies and business decision-making.

Customer Behavior & Segmentation Analysis

SQL, Microsoft Excel, Power BI

- Cleaned and structured customer data to enable **accurate business analysis**.
- Used **SQL (JOINS, GROUP BY, CASE)** to segment customers based on demographics and engagement.
- Tracked key **business KPIs** such as customer count, average purchase value, and sales contribution.
- Built **Power BI dashboards** to support targeted marketing and strategic planning.

Sales & Revenue Performance Analysis – Ferns and Petals (FNP)

SQL, Microsoft Excel, Power BI

- Analyzed sales data to understand **business performance across occasions and time periods**.
- Calculated KPIs including **Total Revenue, AOV, Order Volume, and Delivery Performance**.
- Performed **trend and seasonality analysis** to identify peak demand periods.

- Developed **interactive dashboards** and recommended improvements for data-driven decision making.

Experience

Data Analytics Virtual Internship

Deloitte Australia — Forage — Oct 2025

- Supported simulated **business analysis projects** using real-world datasets.
- Gathered, cleaned, and analyzed data using **Excel and SQL**.
- Created **dashboards and reports** to support operational and strategic decisions.

Education

B.Tech in Artificial Intelligence & Data Science

CSMSS College, Aurangabad

2022 – Present

Relevant Coursework: Business Analytics, Statistics, Data Science

Higher Secondary (Science), 2022

Secondary School (SSC), 2020

Certifications

- Data Analytics with Python – NPTEL (2024)
- Machine Learning – NPTEL (2024)
- SQL (Intermediate) – HackerRank (2025)
- Fundamentals of Deep Learning – NVIDIA DLI (2024)
